This list was collated and distributed on behalf of the BC Paediatric Directors of OT. Inclusion on the list does not constitute endorsement of the skills of the individual or practice group. The College of OT BC has confirmed that all listed contact persons except those starred and identified as non OT, are registered to practice OT in BC with no restrictions or conditions on their practice.

Many therapists on this list also work in public practice and due to conflict of interest guidelines are restricted in their ability to work with clients eligible for service through their public employer. Due to space constraints we are unable to list all these restrictions but the information can be obtained from individual therapists/practices.
